The intent of this program is to improve mobility for seniors and people with disabilities by providing financial support, through programs planned, designed, and carried out to meet the transportation needs of these populations. Funding is available for FFY 2017 for operating, mobility management and capital transportation projects. Information on eligible projects can be found online in the application.

Be advised that there is a monetary match requirement for all FTA projects. Subrecipients applying for operating projects must provide a 50% match, mobility management projects require a 20% match and depending upon funding availability capital projects may require a 20% match.

It is the intention of NJ TRANSIT to submit a statewide grant application to the federal government by December 2018. In order to be selected, your organization must be an active participant in the Coordinated Human Services Transportation Planning process. It is a competitive grant process. If an application is selected for inclusion in the statewide grant and the FTA approves the grant then NJ TRANSIT enters into an agreement with the approved applicants for the purposes detailed in your application.
